

SHANGHAITEX 2003

上海国际纺织工业展

Chemtax and **Datatex** have presented TIM at **ShanghaiTex 2003** from December 10 to 13, 2003. ShanghaiTex is recognized as the leading international show for the textile industry in China. The 10th edition took place in the new Shanghai New International Expo Centre in Pudong.

The **Chemtax/ datatex** stand was focused to present its Management Solutions for the textile industries and the apparel manufacturers. The products demonstrated at the fair covers four interconnected areas:

- Manufacturing & Logistic / Enterprise Resource Planning (ERP) is **datatex** traditional product line. TIM - Textile Integrated Manufacturing, the ERP market leader in the textile industry, fulfils the information system requirements of all textile or apparel manufacturers. The product is available in Chinese.
- BOARD is an information retrieval and presentation tool, which supplies **datatex** customers with the business intelligence their decision-making processes demand.
- CATS Computer Assisted Operations simplify operator-driven data handling and optimizes the fabric utilization.
- E-commerce solutions move relevant client applications and functions to the Web, accelerating operations and improving customer service.

Datatex and **Chemtax** with the participation of HKPC (Hong Kong Productivity Council) have scheduled at Shanghai Tex a one day seminar on the topics

- Specialized ERP Solution for Vertical Integration of Textiles Industry
- How does a textile company to be distinctive by ERP system?
- ERP Effectiveness in Textile Vertical Integration and Strengthen the supply chain management
- Trends and ERP experience in China Textile Industry.

Datatex finalized the successful implementation of TIM at Pacific Textiles.

Quoting Dr Clement Lam, Pacific Textiles limited, Director, "We are well satisfied with the implementation of TIM-Textile Integrated Manufacturing by datatex. Not only we are measuring significant benefits in inventory reductions and in customer service improvements, but also we have the support and the data to taking informed decisions."

The Chemtax/ datatex presence at the fair is in line with the strong **datatex** commitment to enhance its sales activities in China, guaranteeing a robust support in the implementation project and protecting the customer's investment through the periodic release of new versions.
