

Visit Datatex and Insys - fashion partner at IMB Cologne May 10-13, 2006

From 10th to 13th May 2006, IMB - World of Textile Processing - in Cologne will be hosted in a new ultra-modern infrastructure: the Northern Halls of the Cologne Exhibition Centre. In addition to technologies for the production of clothing and processing of textiles, the leading international trade fair for the processing of flexible materials will be presenting a new product sector: complete solutions for the processing of technical textiles. Particular emphasis will be placed on research and development, which is traditionally the strongest area of the European technology industries.

700 companies from around 40 countries are expected to exhibit at the fair. 70 percent of the suppliers will be from outside Germany.
