

5th DHAKA TEXTILE & GARMENT 2008

January 21st~24th, 2008

Stand: 721

Datatex in cooperation with **OneWorld & Company Ltd** will demonstrate its Business software solutions at the 5th Dhaka Int'l Textile & Garment Industry Exhibition 2008.

At ITMA 2007 in Munich, in September 2007, great interest was obtained by the solutions presented by **datatex**, the independent software vendor fully dedicated to the textile and apparel industry, that provides the most effective Business Process Management software for this industry.

The same solutions will run in Dhaka next January, demonstrated by **OneWorld & Company**.

NOW –Network Oriented World, is the worlds best and only fully web based complete textile and apparel software solution package.

It supports the whole production cycle:

- ✓ **Sales**, for order acceptance and fulfillment, including picking shipping and invoicing
- ✓ **Planning**, for optimizing and scheduling of production orders
- ✓ **Manufacturing**, for the management of the production cycle, including dye-house management and quality control
- ✓ **Inventory & Purchasing**, for the optimization of reordering, stock control and valuation policies
- ✓ **Costing**, for the monitoring and control of standard and actual costs.
