

## VANCOUVER 2010 – Eschler has won 84.21% of all possible medals

Datatex is proud to have Eschler as a customer. The athletes wearing suits made of Eschler fabrics have been extremely successful. 48 medals, including 16 Gold, 18 Silver and 14 Bronze. In reality, the Eschler medal count would even be higher than published in their medal table. The

extremely successful Swedish cross-country contestants will be racing in suits, not entirely made from Eschler fabric, but at least partly. There are further areas where they don't exactly know, but they presume that their fabrics are used to make the suits, such as ice speed-skating and ski cross for example. Because they are not sure, they not included those disciplines in their medal table.

Being cold-headed Swiss, they are not exactly suffering from "medal fever", but they are very proud and happy to be a competent and reliable partner to the athletes. They also take that as a confirmation of their competence in this special area.
